Re-forecasts of chlorophyll-a concentrations for Lake Hume using Random Forests

PrimeWaterExp02.h5

The project has received funding from the European Union's Horizon 2020. Research and Innovation Programme under Grant Agreement No 870497.

General

Description

This dataset provides historical 10-day forecasts of chl-a concentrations at four specific point of interest in Lake Hume (New South Wales, Australia). Forecasts are provided by a Random Forest model, which was trained on chl-a concentrations retrieved fr

Parameters

Chl-a

Unit

µg/l
