

H2020-SPACE-2019 Research and Innovation Action

WW-HYPE simulated data of evapotranspiration of the upstream subbasin areas of Lake Hume

Hume EVAP.txt

The project has received funding from the European Union's Horizon 2020. Research and Innovation Programme under Grant Agreement No 870497.

General

Description

computed actual evapotranspiration from olake/subbasin

Parameters

evapotranspiration

Unit

mm per day

Coordinate reference systems

WGS 84 (EPSG: 4326)

Data type

.txt

Keywords

Hydrology, Simulated

Public repository link

https://zenodo.org/record/7964902

Contact

Ilias Pechlivanidis, Jude Musuuza SMHI

Dataset coverage

Spatial coverage

entire case study / river system

Spatial resolution

subbasins

Temporal coverage

daily01/01/2015 - 31/10/2020

Temporal resolution

daily
