

# PrimeWater

**H2020-SPACE-2019**

**Research and Innovation Action**

**Mulargia-HYPE simulated data of evapotranspiration  
of the upstream subbasin areas of Mulargia**

*Mulargia\_EVAP.txt*

The project has received funding from the European Union's Horizon 2020.  
Research and Innovation Programme under Grant Agreement No 870497.

## General

### Description

computed actual evapotranspiration from olake/subbasin

### Parameters

evapotranspiration

### Unit

mm per day

### Coordinate reference systems

WGS 84 (EPSG: 4326)

### Data type

.txt

### Keywords

Hydrology, Simulated

### Public repository link

<https://zenodo.org/record/7964897>

### Contact

Ilias Pechlivanidis, Jude Musuuza  
SMHI

## Dataset coverage

### **Spatial coverage**

entire case study / river system

---

### **Spatial resolution**

subbasins

---

### **Temporal coverage**

01/01/2015 - 31/10/2020

---

### **Temporal resolution**

daily

---

## Usage

### License conditions

CC-BY-SA-4.0

---

### Citations and Acknowledgements

The HYPE model code is available from the HYPEweb portal (<http://hypeweb.smhi.se/model-water/>). Historical values are obtained through HYPE services developed for the PrimeWater project and could become available upon request through <https://hypeweb.smhi.se/water-services/data-delivery-services/>

---

### Scientific Citations

---

## Lineage statement

### Original data source

SMHI's operational service

---

### Limitations on public access

Accessible and confidential data

---
